INDUSTRIAL SECURITY AUDIT PROGRAM

STAT In the 4 years since attention was focused on industrial security as a result of the Boyce/Lee espionage case, the industrial security audit program has steadily progressed. To date more than [ ] comprehensive security audits and reaudits of contractor facilities have been conducted. Selection is based on either the size of the contractual activity and/or its importance and sensitivity. In FY-81, a record number [ ] of industrial facility audits/reaudits were accomplished. The Industrial Security Branch has a T/O of [ ] including [ ] professional industrial security auditors. The audit schedule is being revised for FY-82 due to personnel changes in the Branch; however [ ] audits were accomplished during the first quarter.

STAT The Industrial Security Branch also provides briefings and training to promote better understanding of industrial security policies and practices. ISB regularly participates in the Project Officer in the Contract Cycle Course for Contracting Officer's Technical Representatives (COTRs). An Industrial Security Course for security officers will be conducted [ ] from 1-5 February. In addition, ISB is hosting a series of Industrial Security Seminars for contractor security managers and the first session will be held 21 and 22 January 1982 at Headquarters.
